Brangus Bred Heifers - Consigned By Brad Gonce

Lot # 122

Tag #'s 596,597,598,599,600 * dob: 2025
* Brangus Bred Heifers *

NOTES: Functional, Fertile Females with a Productive Future. This is an outstanding opportunity to add five big-bodied, functional, sound-made Ultra Black heifers that are already bred and positioned to become productive, long-lasting brood cows. These females offer buyers the traits that matter most in a working cow herd: fertility, maternal value, soundness, growth, and the ability to raise quality calves and remain productive over time. All five heifers are bred 4–5 months to EXCC Energize 4038, a Red Angus sire from Explosive Cattle Company. This mating combines Ultra Black females with proven genetics from Bieber Red Angus and Pieper Ranch, two of the premier Red Angus programs in the country.

These heifers originated from Wellman Ranch in Brenham, Texas, and were purchased by Jevin Gonce at last year's Texas Breeders Classic Sale. These are the kind of females that can add immediate value and long-term productivity to a herd. They are:

- Big-bodied • Functional • Sound-made • Well-structured • Bred 4–5 months • Selected for future brood cow potential

Their body capacity and functionality give them the foundation to become cows that can breed back, raise a good calf, and stay productive in the herd. For buyers looking to build a commercial cow herd, add maternal genetics, or invest in females with long-term value, this set deserves serious consideration. Service Sire: EXCC Energize 4038 Registration No. 5027829 EXCC Energize 4038 brings together calving ease, growth, maternal value, carcass merit, and proven actual performance. These are not simply heifers with a breeding date. They are functional females with a genetic future already started. Their breeding, structure, and genetic package give them the potential to become productive cows that contribute quality calves and value to the herd for years to come. Buy these females today and put fertility, maternal value, proven performance, and future herd productivity to work in your operation

DESIGNED FOR TODAY'S MARKET

Pounds to sell have never mattered more

Bayvue Farms and Outfit 8 bulls are backed by decades of International breeding decisions, we produce bulls with muscle, performance and easy calving.

Our herd's genetics run deep from the legendary CoCoMo John, our main herd sire in the 1970s who set a yearling weight record of 1,561 lbs to LCL Fame, whose sons dominated central US gain tests. The performance is bred into every calf.

Charolais, Brangus, Angus and UltraBlack

Bayvue Farms and Outfit 8 are a multi-breed family operation. Each breed must meet the same standards. Why choose Bayvue and Outfit 8:

- ✓ Generations of selection
- ✓ Tested and proven performance
- ✓ Pedigrees that work in the real world
