NOTES: The Two Red Baldy Heifers we have brought for your consideration today, are mates to the heifers we bought at this sale last year! They are out of big broody Brahman cows that go back to Wichita Ranch Breeding and out of RCR 0043 on the sire side. These high performing heifers are by far the most functional, easiest feeding and the most docile set we have ever fed for the Leon County Youth Livestock Fair. These heifers have been out with our Peacock Red Angus Bull since April on green grass and protein tubs. As you study these females it doesn't take long to see they are long bodied, deep sided, very feminine and maternal and most importantly, structurally sound. These cattle possess the traits needed to ensure they turn into productive mama cows, and will have the longevity needed to be profitable for years to come! Study this set of females and bid with confidence. Both heifers sell 5 months Confirmed Bred. Heifers will show in the incentive show Saturday morning and then sell in the sale!
